## Playtesters Required for 3rd Edition Dark Conspiracy™ Rules Changes

AUCKLAND, New Zealand, May 1, 2006 – As part of the ongoing development of the **Dark Conspiracy™** the Role Playing Game of post-modern conspiracy horror, The Gamers' Conglomerate Limited (TGC) is currently soliciting for playtesting groups.

Specifically, we are looking for past and/or present **Dark Conspiracy™** referees who would be interested in joining our independent playtesting group to test and evaluate our new 3rd edition game mechanics. This program will allow referees and players to trial the systems and rules we have identified as requiring improvement through a series of short 'one-off' or 'convention-like' adventures.

### ABOUT THE GAMERS' CONGLOMERATE

TGC is a New Zealand-based limited liability company and stands as yet another example of the creative strength that lies in this part of the world.

A niche publishing company, whose goals are to create and support only the best that the role playing hobby has to offer, TGC is a collective of talented individuals who have banded together in a common cause.

- + a Rules Summary of all of the new mechanics to be tested in the release,
- + an enthralling single session adventure, the setting in which the rules are to be explored, coming complete with a diverse series of pregenerated characters,
- + access to the playtester forums at our website.

### WHAT WE REQUIRE

- + Experienced referees who have a working knowledge of **Dark Conspiracy™** (either the D20 die version of 1st Edition or 2nd Edition of the game), and who have access to an active group of players.
- + Feedback from your sessions via a comprehensive feedback form.
